RAMAN SONI

Senior iOS Developer | Swift, SwiftUI & Native iOS

☎ +91 79997 33258 ✉ ios.ramansoni@gmail.com ⌂ Indore, Madhya Pradesh, India in.linkedin.com/in/raman-soni-590173136

SUMMARY

Senior iOS Developer with 6+ years of experience in native iOS application development using Swift, Objective-C, UIKit, and SwiftUI. Strong hands-on experience with Bluetooth Low Energy (BLE), Core Bluetooth, RESTful APIs, JSON, WebSockets, Firebase, Firestore, and iOS architectures including MVC, MVVM, and VIPER. Experienced in performance optimization, memory management, debugging, testing, and the complete App Store release lifecycle. Additional experience includes CoreML, ARKit, SceneKit, Generative AI, AI-driven features, and developer automation using Native Swift.

EXPERIENCE

Senior iOS Developer

DVJ INFOTECH Pvt Ltd | 04/2025 – 07/2026

Project: AVRP Search / AV Gemstone

- Developed and maintained native iOS applications for Dubai real estate and certified gemstone e-commerce workflows.
- Implemented property listings, search filters, inquiry workflows, product catalog management, and secure purchasing flows.
- Worked across UI development, API integration, debugging, production maintenance, and App Store releases.
- AVRP Search: real estate brokerage application supporting property buy, sell, and rent workflows.
- AV Gemstone: certified gemstone e-commerce application focused on product discovery and online purchasing.

Senior iOS Developer

DiamondXE Pvt Ltd | 04/2024 – 03/2025

Project: DiamondXE

- Led iOS development for a certified diamond trading platform.
- Implemented secure online purchasing, real-time search, and user dashboard workflows.
- Worked across application UI, API integration, debugging, and production maintenance.

Senior iOS Developer

GenieTalk.AI | 08/2022 – 10/2023

Project: OgenieTravels

- Developed the OgenieTravels iOS application for AI-driven flight booking and management.
- Integrated CoreML models and enhanced chatbot-based user interactions.
- Worked on booking workflows, API integration, debugging, and production application maintenance.

iOS Developer

Go Mobile Labs | 04/2018 – 08/2022

Project: Vencru / Baytonia / Onsite Checklists

- Built and maintained iOS applications across accounting/invoicing, furniture e-commerce, and inspection/audit workflows.
- Vencru: developed core accounting and invoicing modules for SME users.
- Baytonia: implemented product listing, add-to-cart, and recommendation modules for furniture e-commerce.
- Onsite Checklists: supported inspections, audits, safety checklists, templates, and mobile workflows.

SELECTED ENGINEERING PROJECT

Native Swift AI Code Analysis Agent

Engineering Project

- Designed and developed a Native Swift CLI-based AI agent for source-code inspection and automated validation.
- Built automated workflows for code-quality analysis and issue detection.
- Generated structured HTML reports for code review and diagnostics, with report sharing functionality.
- Developed the solution as a developer automation tool using Native Swift CLI.

EDUCATION

B.E. – Computer Science Engineering

SAM College of Engineering & Technology, RGPV Bhopal | 76% | 2011–2015

TECHNICAL STACK

iOS Development
Swift, Objective-C, SwiftUI, UIKit, Auto Layout, Storyboard, Combine, RxSwift, Swift Concurrency, async/await, Actors, GCD, URLSession, Codable

Bluetooth & Connected Devices
Bluetooth Low Energy (BLE), Core Bluetooth, Device Scanning & Connection, GATT Services & Characteristics, Hardware Communication

Architecture
Architecture & Design: MVC, MVVM, VIPER, TCA, Clean Architecture, SOLID, Dependency Injection, Design Patterns

Networking
RESTful APIs, JSON, WebSockets, API Integration, Authentication, Error Handling

Cloud & Database
Firebase: Firestore, Authentication, Cloud Messaging (FCM), Crashlytics, Analytics

Apple Frameworks
CoreLocation, CoreML, ARKit, MLKit, SceneKit

Development & Debugging
Xcode, Instruments, Memory Management, Performance Optimization

Testing & Distribution
XCTest, Unit Testing, TestFlight, Apple Developer Account Management, App Store Deployment, UI Testing, CI/CD, Git, GitHub, CocoaPods, Swift Package Manager (SPM)

PROFESSIONAL DEVELOPMENT

Generative AI Engineering Mastermind — Outskill

Completed | 2026

- Completed hands-on training focused on Generative AI engineering, AI application development, and practical AI workflows.

CORE STRENGTHS

- Native iOS application development
- BLE and hardware communication
- API integration and production debugging
- Performance and memory optimization
- App Store release lifecycle
- AI-driven iOS features and developer automation

SELECTED APPS

AVRP Search | apps.apple.com/in/app/avrp-search/id6746069320
AV Gemstone | apps.apple.com/in/app/av-gemstone/id6754549494
DiamondXE | apps.apple.com/sa/app/diamondxe/id6599838164
OgenieTravels | apps.apple.com/us/app/ogenietravels-flight-booking/id1460563270
Vencru | apps.apple.com/us/app/vencru-invoicing-accounting/id1501690721
Baytonia | apps.apple.com/ae/developer/baytonia-company/id1509002088
Onsite Checklists | apps.apple.com/us/app/onsite-checklists-auditing/id1100209820

ADDITIONAL INFORMATION

Languages:
English - Intermediate ●●●●○
Hindi - Native ●●●●●

Achievement:
District-Level Football Player (2012)
